

Ontario: Ontario Health Insurance Plan (OHIP)

<https://www.ontario.ca/page/what-ohip-covers>

Phone: 416-314-5518

Toll-free: 1-866-532-3161

Covered services:

- Doctor visits, including those at walk-in clinics
- Hospital visits, doctor and nursing services, services to diagnose what's wrong (such as blood tests and x-rays), ward room accommodation and meals if you stay, medications for in patients (once a patient is discharged, prescribed medications are not covered)
- Dental surgery when performed in hospital
- Optometry is covered only to an extent for those between the ages of 20 and 64 who have a specific medical condition, and an annual eye exam is covered for those 19 and under or 65 and older. Glasses or lenses are not covered.
- Podiatry is covered for a small portion of the cost of each visit up to a determined maximum per person, per year. X-rays are also partially covered.
- Ambulance services are covered to an extent, though you will have to cover some of the cost
- Prescription drugs: coverage is available for people up to age 25. There is a senior drug for seniors over age 64
- Fees related to travel for health services are available if you live in Northern Ontario
- Supplemental Insurance is strongly recommended
